The boat tour because I learnt a lot of things about Turkey's culture

I really liked the presentations of the other countries as I learned about other cultures

Nice

Making a compost because it was fun

I liked visiting DIA. It was amazing to learn about different machines and make things using waste.

The event that impressed me the most was when those traditional Turkish singers came in the school's yard.

My favorite activity was making toys for kids by recyclable things because I really like making creative things

My favourite event was the intercultural events where we saw a few traditional things from this country that makes me to understand more cultures.

I liked it the most when I went by boat, because I saw the Bosphorus and other beautiful landscapes

I was impressed when I toured the school

Very interesting was the DIA workshop

I loved the bosfor journey because I was able to see more than just that one part of the city we were staying at

Visiting the recycling factory because I thought it was really interesting and i liked the idea.

I was impressed when I toured the school

Sail with a ship in the Bosphorus. I also saw a lot of beautiful, historical places. It was an amazing day.

The various activities illustrated the concerns for the protection of the environment. The most pleasant was the activity at the recycling center, being an effective way of learning, through collaboration with specialists in working with metal, wood.

Eating turkish food

Making toys for kids

For me, the best part was visiting Istanbul. I loved the trip on Bosfor and Haya Sofia, because I learned new things about turkish culture.

Marbling was inspiring and relaxing. I was impressed by the cooperation of Art, Music and English teachers during the activity. The cleaning lady's performance was the highlight of the unforgettable moment.

the production of toys

Making toys, learning about making humus, how technology can make better environment

For me, the best activity was creating toys for kindergarten. It was so creative. But the best day was Thursday, exploring Istanbul. Beautiful city. It's the week that I'll never forget. Thank you Ahmet and everyone!

As an artist I was very excited about doing the paper marbling technique. I also liked visiting the art club at the school. And I enjoyed participating at the workshops because they were very creative.

really liked making toys for small children, a pot for plants, drawing.

I really loved exploring the city and meeting new people in the school. I learned a lot of new things about saving the planet and reusing materials

I liked the visit at DIA because it is a good example of how plastic waste can be recycled. They were creative and made interesting prototypes. I also appreciated the technical support they had for the production. IA helping the environment.
