

Zero Waste Calender - November 2022

Sun	Mon	Tue	Wed	Thu	Fri	Sat	Notes
30	31	1 Take your water bottle with you to school/work. 	2	3	4 Inform your friends about being green.	5	<ul style="list-style-type: none"> • 2 million plastic bags are used every minute worldwide. • 75% of every vehicle is actually recyclable. • If we were to start recycling all newspapers, we could save an average of 250 million trees every year. • The average time that a plastic bag is used is just 12 minutes. • If we do recycle just one glass bottle, we save enough energy to light a normal light bulb for around four hours. • It costs 90% more energy to make new aluminum cans than to just recycle them. • 17 trees, 4,100 kilowatts of energy, 2 barrels of oil and 3.2 cubic yards of waste space can be saved by recycling a ton of paper.
6 Try to make compost at home for the plants at home/school. 	7	8	9 Repair items at home that you do not use anymore. 	10	11 Visit a place which gives importance to recycling. 	12	
13	14	15 Prepare a lunch that leaves no waste.	16	17	18 Take your own bag when you go to supermarket.	19	
20	21 Sort out your rubbish! 	22	23	24 Reduce using packed products. 	25	26	
27	28	29	30 Use towel (cloth/fabric) instead of paper towel..	1	2	3
